## PERSONAL PROJECTS

### [/ignite-call](#) | React.js – Node.js – Typescript – GoogleOAuth2 – Prisma

- A call scheduling application, where you can register your availability and invite people to events, with connection to Google Calendar.

### [/gypass-api](#) | Node.js – Fastify – Docker – PostgreSQL – Prisma

- Node.js based API, developed with concepts like SOLID, DDD, TDD, Repository Pattern, Factory Method and RBAC system. Has unit test for specific use-cases and test E2E for every HTTP controller.

### [/todolist](#) | Java – Spring Boot – Spring Data JPA – bcrypt

- A back-end Java API using SpringBoot, where we are able to register tasks with titles and descriptions and change their data with a simple user validation system.

## ABILITIES

- Creative: always searching for new ideas to solve known problems.
- Relationship: ease to teamwork.
- Curious: motivation to learn new subjects.
- Flexible: easy adaptation to different situations.

## ABOUT ME

- I'm a young man with a passion for technology, who enjoys solving problems and helping people. I'm committed to dedicating myself to projects that can have a positive impact on the lives of the clients of the company I work for.

## LANGUAGE

- Portuguese: Native | English: Advanced | French: Basic
